

Kindergarten Sight Words

Kindergarten · Ages 4–6

How to use this pack

- Ninety words, in the order most kindergartens teach them: the pre-primer list first, then the primer list.
- Read the list page across, left to right, for sixty seconds a day. Words she reads instantly get a check; words she has to sound out get practised.
- Each practice page takes one group of six words. She traces the word, writes it twice on her own, then finds it in a line of look-alikes — that last step is what stops guessing from the first letter.
- Do not move to the next page until five of the six words are instant. Sight words are a memory job, not a sounding-out job.

A note for the grown-up

Short and cheerful beats long and correct. Five to ten focused minutes a day will out-perform a forty-minute session that ends in tears. Stop while she still wants one more page — that is what makes her come back tomorrow. Say the sound, not the letter name, when you are sounding words out.
