

Letter Tracing

A to Z

Preschool – Kindergarten · Ages 3–6

How to use this pack

- One page per letter, uppercase and lowercase together, because she will meet both on the same day in every book she opens.
- Big letters first, then the ruled rows. The dashed middle line is where lowercase letters stop — point at it before she starts.
- Fat pencils, crayons and fingers all count. Letter formation is a shoulder-and-elbow skill long before it is a finger skill.
- Print the letters of her own name first, in whatever order they come. Nothing motivates like writing your own name.
- Each page has a start dot on the big letters. Always start there — reversed letters almost always trace back to a wrong starting point.

A note for the grown-up

Short and cheerful beats long and correct. Five to ten focused minutes a day will out-perform a forty-minute session that ends in tears. Stop while she still wants one more page — that is what makes her come back tomorrow. Say the sound, not the letter name, when you are sounding words out.
